TEN CENTS A WEEK

CORPORATIONS TO BE TAXED ONE PER CENT

**Conference Committee Decides to Cut the Tax on
Incomes of Corporations In Half.**

WASHINGTON, July 13.—At a conference at the White House yesterday it was definitely decided that the rate to be levied under the new corporation tax shall be reduced from 2 per cent to 1 per cent, and that in redrafting the measure, now in conference along with the tariff bill, due consideration will be given to the demands of the mutual life insurance companies, whose incomes would have been seriously affected.

President Taft was the central figure in a number of conferences yesterday and is living up to the prediction made many weeks ago that in the conference consideration of the tariff bill he would actively lend his influence to conciliate all differences.

The conference report should be available, according to the President's best information, by the end of next week.

As to the mutual insurance companies it is said the redrafted bill will be so arranged that the tax shall fall upon stockholders' profits, and

allowances will be made for annuities and other long-term outstanding contracts.

The tariff conferees made satisfactory progress yesterday in spite of the fact that the house members were compelled to be absent much of the time on account of the session of the House. Thus far, however, the amendments agreed upon in the chemical, earthenware, metal and wood schedules have been of minor importance.

Determined opposition was shown by the House conferees to the increase from 1½ cents to 2½ cents a pound which the Senate made on lead bullion. As a result this schedule was held up. Boracic, salicylic and oxalic acid, quebracho, licorice and numerous other articles, over which there was a contest in the Senate, are among the subjects that must be taken up later.

Requisition Has Been Made For Special Train to Palatka

About fifty tickets were purchased outright Tuesday to guarantee the excursion to be run to Palatka on Thursday afternoon, and Agent Goodwin has made a requisition for the train even with this number, for he thinks the remaining number can be secured with all ease.

He will leave today, but his assistant, Mr. Wilson, will be in charge of the office and the people generally believe that the service will be granted by the railway officials.

Under the weather conditions Tuesday morning it was not an easy matter to sell tickets for a baseball game, but following the clear-up at noon they went fairly well.

If the train is given it will be generally known by this morning, so that all preparations can be made for those who desire to accompany the crowd and "root" for the famous Oak Halls.

The special will leave Gainesville about the noon hour, but the exact time will be announced in tomorrow's

Sun. This will give you fully five hours in Palatka, arriving there about 2:30, and returning leave about 7:30, the same as it was last season.

Tad Schradaressi, L. J. Burkhim and J. A. Ettel have all worked hard for the excursion and last night succeeded in selling many more tickets for the event, which makes it an assured fact, as the train has been ordered.

It will leave Gainesville not later than 12:30 noon and it has been suggested that each and everyone wear Oak Hall ribbons, and ones bearing "Show 'Em the Way to Play Ball," and decorate themselves liberally to show the boys we are with them.

It required only a little less than two hours to sell the number of tickets outright that were required to guarantee the service, and everyone that can possibly get off should go over and witness one of the best games of ball that will be played during the entire season.

Income Tax Passes House By Large Vote of 317 to 14

WASHINGTON, July 13.—It is now up to the legislatures of the several States to say whether there shall be an income tax amendment to the constitution.

By the decisive vote of 317 to 14, more than the necessary two-thirds, the House yesterday passed the Senate joint resolution providing for the submission of the question to the States. The negative votes were all cast by Republicans. No amendment having been made to the resolution, it now goes to the President for his signature.

Practically four hours were consumed in debating the proposition, and yesterday afternoon many members, mostly on the Democratic side, had an opportunity to air their views. Chair-

man Payne, of the committee on ways and means, voiced the sentiment that such a tax would make a "nation of liars," although he said it was well that such power should be given Congress, especially in times of war.

The burden of the Democratic speeches was that it was simply a case of stealing Democratic thunder, although some of the remarks on that side incidentally touched upon the tariff and the corporation tax, with no little amount of castigation of the Republicans for failing, as was alleged, to keep party pledges.

Adjournment was taken at 5:33 p. m. until Thursday.

"We welcome the conversion of the Republican party to another Democratic principle," was the comment

RAINS ARE GENERAL.

Reports That All Streams Are Fast Filling Up.

Reports from all sections of the county, as well as other sections, is to the effect that all streams and low places are fast filling up from the heavy rains of the past ten days.

Sheriff Ramsey, who has been in many parts of the county during the past few days, stated that in all sections the ground was covered with water and it was something like it was years ago when the woods were full of water. He also being a successful farmer stated that it would mean abundant crops for next year if the present favorable conditions remain.

The people around Gainesville are particularly glad of the fact that the prairie is fast filling up, for it will cause a great many ducks to come here to feed in the fast months and make hunting better than for the past few years.

of Mr. Clark, Missouri, the minority leader.

An income tax, he maintained, was a Democratic principle. He concluded by expressing himself in favor of increasing the amount of exemption above five thousand dollars.

Mr. Clayton, Alabama, said he would exempt the poor man, who was least able to bear the burdens of government and would tax the multi-millionaires.

"I would," he exclaimed amid Democratic applause, "get your Willie Waldorf Astors in the light, who have millions of income and live abroad. I would get the Laird of Skibo or Skebo or Skeebo or whatever you may call it."

"I scorn," said Mr. James, Kentucky, in favoring the resolution, "a government whose taxing power provides that Lazarus shall share his crumbs, but that Dives must not give up his riches."

Mr. James quoted from an ante-election speech by President Taft in which Mr. Taft favored a graduated income tax and expressed the view that perhaps a change in the personnel of the United States supreme court might effect a reversal of its former opinion.

While favoring the amendment, Mr. Henry, Texas, expressed the fear that it would suffer defeat if submitted to the legislatures. The only safe way, he contended, was to submit the proposition to constitutional conventions.

Mr. Bartlett, Georgia, shared in the view that the amendment stood a good chance of being defeated through lack of the necessary support by the legislatures.

In a fiery speech in support of an income tax, Mr. Robinson, Arkansas, severely arraigned the Republicans for as he charged, "fooling the people" before the last Presidential election.

Others supporting the resolution were Messrs. Hull, Tennessee; Sims, Tennessee; Byrd, Mississippi; Richardson, Alabama; Hefflin, Alabama; Dies, Texas, and Hobson, Alabama.

When the speech-making had been concluded Mr. Henry, Texas, vainly sought to offer an amendment providing for the submission of the question to the people through constitutional conventions.

Came to Buy Live Stock.

D. W. Tompkins and A. C. Cobb, both prominent citizens of Ocala, and who are engaged in the livery business, were here yesterday with a view to purchasing some stock to temporarily fill their needs in the livery business. They were among the hardest hit by horses with glanders, for in all forty-two head of stock were killed from their stables alone. They hope the spread of the disease has been checked and that other owners will not be compelled to stand the same loss they have had to go through with on account of the prevailing disease, which seems to prevail in a great many sections.

ONE LADEN STEAMER GOES TO THE BOTTOM

**Off Lake Superior With Fourteen Souls---Sank in
Short Space of Three Minutes.**

SAULT STE. MARIE, Mich., July 13.—Three minutes after the steel steamers Isaac Scott and John B. Cowle had collided in Lake Superior early this morning about a mile and a half off White Fish point light-house, the Cowle had gone to the bottom in fifty fathoms of water, carrying with her fourteen members of her crew. The Scott, although badly damaged, put back to this port where she arrived this afternoon with part of the crew of the Cowle.

A heavy fog was responsible for the collision. The Scott, a new boat, was on her maiden trip to the head of the lakes. The Cowle was down bound with eighty tons of iron ore in the hold.

When the crash came, for fifteen feet the bow of the Scott scraped the side of the Cowle. In three minutes the Cowle had settled to the bottom of Lake Superior.

A line was thrown from the deck

of the Cowle and three members of the crew escaped by this means.

The rest of the crew who were saved jumped into the lake, some without life preservers, and some were picked up by the Scott and the steamer Goodyear, which was a short distance astern of the Scott when the collision occurred.

Capt. Rogers, of the Cowle, was one of those who were rescued.

Until Captain Rogers returns here it is impossible to secure the names of the men who perished with the Cowle.

The Scott received serious injuries in the collision which would probably have sent her to the bottom also if she had been loaded.

The John B. Cowle was 445 feet long, 50 feet beam, and owned by the Cowle Transit Company, of Cleveland. The Cowle went into commission in 1902.

Harry Thaw Has Chance to Once More Be a Free Man

WHITE PLAINS, N. Y., July 13.—If counsel can agree, a commission of three alienists, mutually selected, will pass upon the question of Harry K. Thaw's sanity. This was practically decided before adjournment yesterday at a continuation of the hearing before Justice Mills, in which counsel for Stanford White's slayer is trying to establish his right to release from the asylum for the criminal insane at Matteawan.

With all of yesterday's testimony in favor of Thaw and with the indication that his wife, Evelyn Nesbit Thaw, will take the stand in his behalf; with District Attorney William Travers Jerome eliminated, Thaw's chances for release appear brighter than at any time since his commitment.

After a string of witnesses who testified to Thaw's soundness of mind had taken the stand yesterday, Roger Clark, deputy attorney-general, who is conducting the people's case, informed the court that he had been

so much impressed by Thaw's intelligent interest in the issue at stake that he was willing to concede Thaw's right to a full and impartial examination.

Justice Mills favored the suggestion for a commission, but was of opinion that the State ought to name two of the three experts. With that exception, he left the personnel of the commission to be determined by joint counsel.

Evelyn Nesbit Thaw, who has been living in retirement of late, may take the stand today. She has abandoned vacation plans, it is announced, to appear for her husband.

Jerome Interested.

SARANAC INN, N. Y., July 13.—Although it is understood District Attorney Jerome will take no part in the proceedings in progress at White Plains to determine the sanity of Harry Thaw, it is evident that, from his vacation retreat at Racquette Lake, he is following the case closely.

Horse Thief Is Captured Monday Night at Baldwin

Sheriff Ramsey has again demonstrated his ability to run down criminals by landing a horse thief who stole the animal at Paradise on last Thursday night.

Wallace Fielder stole the horse from Sam Hamilton at his stables near Paradise on last Thursday night, riding him toward Jacksonville, as was later discovered.

The sheriff was notified of the theft on Saturday morning after the negro who lost the animal had about given up all hopes of securing its return, and the sheriff at once got busy with the wires, putting out a description of both the horse and the man suspected, with the result that he was caught at Baldwin Monday night and the sheriff notified to come after his man.

The animal stolen was a valuable one and about all the property the

negro had, which made it a heavy loss for him. But the quick work of the sheriff landed the animal and thief at the same time.

Sheriff Ramsey and Hamilton left Tuesday for Baldwin to claim the animal and return the negro to this county for the offense.

This is the second horse stole in Alachua county during the past month.

Will Engage in Mercantile Business.

C. W. Wells of Archer was a visitor here yesterday. He states that he will start up a general mercantile business at that place within a very short while. Being well acquainted and having for a long time been identified with the trade of this section, he feels confident that he will make a success of the business.

THE ENROLLMENT IS LARGELY INCREASING

NOW OVER ONE HUNDRED IN
ATTENDANCE AT NORMAL.

The Attendance is Steady Regardless
of the Heavy Rains of Past
Few Days.

The enrollment of the Normal has reached one hundred and eighteen. So large has grown the class in agriculture that Prof. Vernon has cut it up into sections, so he can handle it to the advantage of the students. This gives two recitations a day on agriculture.

The Latin, algebra, arithmetic, geometry and trigonometry has been divided into sections.

Regardless of the rain the attendance every day upon all the classes is full. The spirit of work pervades the entire body.

Yesterday afternoon, float and wagons were furnished, and the faculty and students spent the afternoon inspecting the University and experimental grounds.

To prevent over-crowding, the party went in two sections; Maj. Floyd having charge of the first, and Prof. Vernon having charge of the second. At the University, each section was shown through the laboratories first, and then through the buildings and grounds, the work of the University being minutely explained.

This trip to the University will bring its work more prominently before the schools of the State than anything heretofore done. The teacher-students have caught new ideas about nature study, plant life and culture, and the wonderful productivity and possibilities of Florida's soil.

A WOMAN HUMILIATED.

Would Not Attend Social Functions
Because of Her Hair.

There are many women in this world, handsome in feature, perfect in form, graceful of movement and brilliant of mind, who keep in the background just because they have thin, colorless and lusterless hair.

In Paris they understand things about the hair that we do not know in this country. It was a Parisian, Dr. Sabourand, who discovered that thin hair and dandruff are caused by a microbe.

It is Parisian Sage that proves Dr. Sabourand's theory to be correct, for it is rigidly guaranteed by W. M. Johnson to kill the dandruff germ and cure dandruff, falling hair and itching scalp in two weeks or money back.

Parisian Sage is a delightfully pleasant hair dressing and invigorator; it is not sticky or greasy. It should be used freely in summer, as it keeps the scalp clean and cool and free from odors.

The price for Parisian Sage is only 50 cents for a large, generous bottle, and is for sale by leading druggists everywhere. Sold in Gainesville on the money-back plan by W. M. Johnson. The girl with the auburn hair is on every package. Made in America by Giroux Mfg. Co., Buffalo.

Pumping Out Water.

Superintendent Miles, who has charge of the King Company's contract on the Government building, was busy all of yesterday pumping out water from the large excavation made for the building. The rainfall on Monday night, together with what was running in the hole from the streets, made several inches, and it was necessary to syphon it out.

A Caroline Islands Legend.
The Caroline Islands group includes, besides coral islands, five mountainous islands of basaltic formation, beautiful and fertile with rivers and springs. Among the many queer legends of these children of the Pacific there is none more highly improbable than their theory as to the origin of these islands and their inhabitants. They think they themselves were very strong in the water—in fact, they lived in it. The story goes that a woman and her children were floating around on the reef when a man appeared from the west with a basket of soil on his shoulders. He had started out to make an island with a mountain on it. One of the children cried out to him, "Give us a little soil to make a place for our mother to rest, for she is very weak and cannot swim." He took out a handful of the earth and threw it down, making an island. As the man was going on his way over the water the son slyly made a hole in the basket, so as he proceeded on his way he left a trail of land behind. Suddenly he became conscious that the basket seemed light, and, looking around, he saw the land. In his anger he turned about and trod upon it, and thus the islands were formed.

An Apt Answer.

The dangers associated with the fishing industry on the Newfoundland banks are many and grave. Foremost among them is that the dories may be upset while fishing, which involves almost inevitable loss of their occupants. Callous captains, secure themselves from the necessity of going, frequently order their men out when the weather does not warrant it, and disastrous are the results. One of these brutal skippers was aptly answered once by a bank man of whose courage or capacity there was no question.

"Out with you!" shouted the captain. "Hurry up there! It's a fishing day!"

"Oh, no, skipper!" replied the dory man. "It's too stormy today for a boat to fish."

"Nonsense, man!" rejoined the skipper. "If my old grandmother was here today she'd get her dory out."

"Then, skipper," said the man, "if her grandson will come out with me now I'll haul my trawl."

It is needless to say no dories were launched from that schooner on that date.—Philadelphia Ledger.

light carbons, which threatened to give trouble, was postponed. The Senate changed the duties from ad valorem to specific and the House conferees contend that the rates were thereby increased. The same is true of window glass, on which the Senate fixed a graduated tax according to sizes.

The more important subjects passed over in the metal schedule are iron ore, lead bullion, and zinc ore and bullion. There are a large number of amendments relating to finished products of these ores that cannot be disposed of until the main subjects are settled.

Iron ore was placed on the free list by the House and made dutiable by the Senate. The Dingley rate is 40 cents a ton. The general impression is that the Senate will make a concession to the House and that as a compromise the rate may be fixed at 10 or 15 cents a ton. The House provision for free hides, which was struck out by the Senate and the existing rate of 15 per cent ad valorem substituted, and for \$1 on lumber, which rate was materially increased in the Senate, will be the subjects of contest. It is not likely, however, that this will be reached this week.

The amendment adopted by the Senate providing for the establishment of a customs court is likely to be accepted by the House conferees. It was said yesterday that the more the House conferees study the plan, the more they favor it.

The terms of the Senate maximum and minimum are meeting with some favor from the House members of the conference committee and the indications are that it will be accepted for some minor changes have been made. This feature provides that the maximum rates, which are fixed at 25 per cent above the import duties prescribed by the bill, shall go into effect on March 31 next, unless the President by proclamation in the meantime shall have released countries from the higher rate. These proclamations are to be issued only upon receipt of evidence that the United States is receiving the best rates given by such foreign country.

It is authoritatively declared that as to maximum the President is in favor of the administrative feature of the Senate bill. It is considered to be less drastic than the House provision, which has been characterized in the Senate as retaliatory in its nature, whereas the Senate provision is an attempt toward reciprocal trade agreement.

That cotton bagging, which was put on the free list by the Senate, is not to remain undutiable, is one of the first predictions made in regard to the proposed action of the conference committee on the tariff bill. Jute and jute butts, from which cotton bagging is made, have been transferred to the dutiable list by the Senate, but as jute was on the free list in the Dingley bill, as well as the Payne bill, the duty probably will be taken off in conference.

Another prediction made with regard to the action of the Senate conferees is that the duty on coal, which is 60 cents in the Senate bill as compared with 67 cents in the existing law, will be finally agreed upon at 40 cents in conference.

The President will not allow himself to be quoted at this stage of the tariff proceedings, feeling that it would be more harmful than helpful.

As to the application of the corporation tax to holding companies, the President is represented as believing that the tax paid by the issuing corporation is sufficient without taxing the dividends of holding companies which are paid from the dividends of stock held.

SANFORD BUNCH WINS THE DOUBLE-HEADER

TWAS CLOSE AND HARD-FOUGHT
PITCHERS' CONTEST.

Grounds in Poor Condition But This
Did Not Retard the Fine
Work of Players.

The Oak Halls suffered defeat in the double-header at Sanford Tuesday, but it was two pretty games at that, some fine work being done by both teams.

The grounds were in rather a muddy condition, but this does not seem to have effected the work of the two clubs, for they have been playing great ball, the scores, hits and errors all indicating such to be a fact.

Now that arrangements have been completed for the Palatka trip on Thursday, they can look for the largest crowd of "rooters" that ever left the city to meet the boys in the Gem City and assist them in at least taking the last game from that nine, that they may have as many as three out of the eight road games to their credit.

All during the road trip the boys have been up against a real proposition, and it took their best efforts to hold them in the nice manner that they have.

In the first game at Sanford Tuesday afternoon Bullock and Watson constituted the battery for the Oak Halls, with Gardner and Hudson for the celery bunch. Following is the score by innings:

r h e
Oak Halls... 1 0 0 0 0 0 0—1 4 3
Sanford... 0 0 0 1 0 0 0—2 4 2

The second game was called immediately following the first and by special agreement it was agreed to play only six innings; but for this fact the boys might have pulled out and tied the score, or defeated them, but it was even a better exhibition of ball playing than the first game, errors and hits both being less, and two-thirds of the game played.

r h e
Oak Halls... 0 0 0 0 0 0—0 1 1
Sanford... 1 0 0 0 0 0—1 1 1

WALDO NOTES.

WALDO, July 13.—John H. Prescott met at the train here Monday his sister, Mrs. M. A. Covar, from West Palm Beach. They had not seen each other for thirty-five years, so that it became necessary for her to ask, "Is this Mr. Prescott?" The meeting was very affectionate and they drove out to Mr. Prescott's farm, eight miles in the country.

The Waldo House changed hands on Tuesday, John Boring and family moving to Mrs. Boring's mother's, Mrs. Rice's, and Mrs. Godbolt and children moving into the Pettit cottage recently vacated by Mr. Fielding. J. P. Summers took charge and will also open a business in one of the stores of Hicks' brick block, thus giving another business house to our town. Mr. Summers comes from Hampton acre.

There was no service in a white church here last Sunday, the pastor of the Methodist church, Rev. Barr, being on a vacation necessary to his health in the mountains of North Georgia, it being his day to preach.

A Jolly of Orange Heights was in town Saturday. He is always greeted as one of the most prominent citizens of our section, where he has resided since before the Civil War, occupying the same farm. He has had severe afflictions for the last several years, but is able yet, at fifty-five years old, to do chores around his place, even using the hoe. A Hindu he has long been a member in the Methodist Church.

Rev. Green, pastor of the Baptist church, on his last visit performed the funeral service of Mrs. Catherine Weeks, married Miss Barbara Small, and Mr. Earle Trowbridge, and baptized Mrs. O. B. Weeks at a regular service.

W. M. Pugh has received a commission from Governor Gilchrist appointing him notary public.

A couple recently married by a so-called minister saw it necessary to be married again by a regular pastor, and it was done.

An attendant from the insane asylum took the train here Saturday with quite a young woman, who was a Miss Ponds, and who was recently married (?) to a Mr. Morris, near Fairbanks, to convey her to that institution. Another unfortunate circumstance is that she has a five-months-old child, which was left with the family.

The tax sales advertised by the county collector include several pieces of property in and around town. Land owners had better look them over, or a surprise may be sprung on them in the nature of a tax sale certificate some day.

A superabundance of rain is giving farmers as much concern as did the recent drought.

Miss Ida Redd has returned to her position in a popular store in Jacksonville.

Dr. G. W. Murphy, long a mail agent on the S. A. L. railroad, has gone to Colorado for relief from lung trouble, and will probably remain some time. He is a brother of Mrs. J. R. Wilkerson.

The sling-shot and toy gun being ruled out by a town ordinance, we now have instead the cheerful notes of the redbird, the short song of the bluejay, the cooing of the mourning dove and the trill of the mockingbird, while their varied plumage contrasts beautifully with the green of our shade trees in the door yard.

Waldo boys are ambitious to have the lead in baseball teams, and though defeated several times lately, are nothing daunted. N. P. Cauthen has been elected manager. Prinaud M. Harvey captain, and Cricket Prewitz secretary-treasurer. The team will have an ice cream social in the bank building Thursday to replenish their treasury.

Mrs. L. R. Chase is visiting her parents, Rev. and Mrs. D. L. Branning.

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

Are YOU Being "Hunted?"

One of today's want ads. may be hunting you—ransacking the city for you. It may have a message for you of urgent personal importance—one that, when you get it, and heed it, may change the immediate currents of your activities, of your interests—may even place around and about you new environments, new associates; may give you an entirely new start in a business way.

Isn't it worth while to try to find out whether this may not be true—today, tomorrow, or very soon?

There is much needed work to be done by the street committee in the way of cutting down the weeds in the public places of this city.

That's not a bad bill of the Georgia Legislature requiring hotel proprietors to equip their beds with mosquito nets. Neither would it be bad law to enact in Florida.

"The Best People on Earth" convene in Los Angeles, Cal., this week, and it will be "Hello, Bill," all along the line from the Atlantic to the Pacific by the "boys" en route to the great convention of Elks.

Gordon Keller, a leading business man, most popular citizen, and city treasurer of Tampa, died last Saturday afternoon at his home in that city of organic liver trouble. Mr. Keller would have been 44 years old next October, having been born in Bryan county, Ga., October 6, 1865. He was a most affable gentleman and successful business man, and will be greatly missed by the people of Tampa.

More than a thousand saloons closed in Texas at midnight of July 10th, never to again open. This was brought about through the new law enacted at the last session of the Legislature limiting the number of saloons to one for every 500 population and barring the issuing of new licenses except where a saloon is conducted in conjunction with a hotel. It is probable that the number of hotels will materially increase in that State during the coming year.

The persistent agitation for a "safe and sane Fourth of July" seems finally to have borne fruit. In Washington, the Capital of the Nation, according to authentic reports, the Fourth, which fell on Sunday, and the fifth, on which the holiday was celebrated, passed without noise and without casualties. The day was marked by picnic and athletic games and a floral automobile parade, and in the evening there was a handsome display of fireworks conducted by professionals in one of the public parks. This improvement over the insane methods of the past is due to the press, which in season and out, has preached the gospel of sanity and common sense in the celebration of Independence day.

If there is any hoodoo about "thirteen" it must have struck the British woman suffragettes a hard blow the other day when they made their thirteenth ineffectual attempt to interview the premier and gain access to the House of Commons. One hundred and twelve struggling and combative women were arrested and two of them were so masculine as to slap the face of the inspector of police and knock off his hat into the mud. While such actions may show courage and a grim determination, they will not help the cause of woman suffrage in that country or this. Woman's rights have made great advance in many countries within the past twenty-five years, and that advance has been due to the justice of the demands and the reasonable way in which they have been presented. Certain it is that no cause, least of all one that is inherently right, has ever helped to success by rowdiness.

MANUFACTURERS OF VICE.

Many communities spend large sums every year for the capture and punishment of criminals, while at the same time they encourage people to become criminals by allowing vice and the feeders of vice to flourish unmolested. That this is true is evident to all who have seen some of the vicious and indecent attractions which abound in many amusement parks and pleasure resorts.

These exhibitions are witnessed by thousands of children who soon lose their innocence and have their lower passions aroused as they see the indecent pictures and posturing and hear the coarse and suggestive utterances of the performers.

The policy that allows such things to go on is a poor one financially, when results are considered, for the comparatively small amounts received for licenses are but as a drop compared with the vast expenditures for police and other purposes. And from the moral and social standpoint the policy should be unreservedly condemned.

Unless all signs fail and the news from Washington is totally misleading the tariff bill will contain two fundamentally important provisions. First, the corporation tax provision will necessitate the filing annually with the Commissioner of Internal Revenue a statement of the actual receipts, expenses and profits of every corporation in the country. Secondly, the President will have power practically to create a tariff commission. The authority conferred upon him to employ experts at such remuneration as he may deem proper is almost unlimited. President Taft, with that diplomacy which is one of his notable characteristics, pointed out to his party leaders that it would be an impossibility for him properly to administer the maximum and minimum sections of the law without the assistance of such experts. Bent on having this provision properly administered the leaders were willing to furnish any machinery Mr. Taft demanded and he, perceiving his advantage, gently led them into authorizing him to take such steps as may be necessary to acquire any information on the subject of the tariff he may deem important. In view of his convictions regarding the tariff and the poor opinion he entertains of the present "revision," it is a safe prediction that he will quietly but surely take steps to acquire indubitable information regarding the cost of production here and abroad and which, together with the figures of the Commissioner of Internal Revenue, will afford a basis for a tariff revision such as this country has never known. It is even, in our estimation, a safe prediction that if Mr. Taft should be elected for a second term, his administration would witness another revision of the tariff which would actually square the amount of protection with the difference between the cost of foreign and domestic production.

A project is on foot to construct an electric road from Miami to Jacksonville, equipped for the transportation of freight as well as passengers. The rate charged by the East Coast railroad on pineapples is said to be responsible for the threatened competition, and the enterprise will have the fruit growers of that section back of it, assisted by prominent Chicago capitalists.

Most boys are supposed to like athletics. And most boys are supposed to dislike Bible study. But listen to this from one of the most remarkable young men an American college ever turned out, who once scored a touchdown against Harvard Varsity football team by a phenomenal 100-yard run, won a Cecil Rhodes scholarship at Oxford, whipping the Englishman in event after event of their own athletics, piling up his intellectual honors the while, and finally made everybody gasp by daring to attempt a final Oxford examination for which the English students take three years to prepare, after "plugging up" for it only six months. Half the class failed, but he passed with high honors. At twenty-six years of age this man, David Porter, decided to devote himself to the Christian life of the young men of America, and is at present working under the auspices of the Young Men's Christian Association among the boys of the secondary schools. This is what he says, after a wide experience with boys: "In the average secondary school it is easier to get boys to undertake regular systematic Bible study than it is to try for any athletic team." "Dave" Porter's reasons for his belief are given in a remarkable article just published in The Sunday School Times.

A FROG IN THE POT.

Vexing Days of the Early Tea Tax in New England.

Tea was not brought over by the first settlers. When the pilgrims landed at Plymouth tea was selling in England at from \$10 to \$50 per pound. It was a luxury that had been known to Englishmen only a few years.

Early settlers got along without India or China tea for a long time. They used roots, herbs and leaves found in the fields and woods as a substitute for tea. Sassafras tea was a common drink.

Tea was advertised for sale in Boston in 1762 for the first time, according to historians. In 1763 patriots began to take the pledge not to drink tea because of the tax that the English government placed on it. It became fashionable for patriotic ladies not to serve India tea, but as substitutes therefor "Labrador tea" and "Liberty tea."

Captain Page of Danvers forbade his spouse to taste tea beneath his roof as long as the tax remained upon it, but the strong minded and ingenious lady ascended to the flat roof of the house, invited her friends to follow and there she served tea to them.

Some other ladies of the town fared less fortunately. They used to borrow for their tea parties the big tea pot of the once famous Bell tavern. One day, after drinking the forbidden beverage, the master of the house unexpectedly walked in, jumped to the fire, grabbed the teapot and turned it over, and out rolled a big frog. The jovial patriots at the Bell tavern suspecting the use of the pot had placed the frog in it. Some of the dames never drank tea afterward, for it made them sick.

Isaac Wilson of Peabody persisted in selling tea, so the Sons of Liberty seized him and compelled him to walk about town penitently repeating:

I, Isaac Wilson, a Tory be,
I, Isaac Wilson, I sell tea.

The celebrated Boston tea party was followed by tea parties in other New England towns. In Salem, soon after the Boston party, David Mason was suspected of having had his negro servant smuggle two chests of tea into his home. Patriots entered and searched his house. They found the tea. They gave it to boys, who paraded with it to Salem common and there burned it.

Even after the Revolution trade in tea was not wholly unrestricted. It appears that in some New England places dealers in tea were required to take out a license.—Boston Globe.

FEARED TOTAL LOSS OF HAIR

Scalp had been Scaly for Some Time—After an Attack of Typhoid Fever his Hair Began to Fall Out by the Handful—Now It is

THICKER THAN EVER
THANKS TO CUTICURA

"About two years ago I was troubled with my head being scaly, like dandruff but heavier—although I wash my head once a week always. It never gave me any trouble such as itching or smarting and I never noticed any falling of the hair. But shortly after that I had an attack of typhoid fever and I was out of the hospital possibly two months when I first noticed the loss of hair, my scalp being still scaly. I started to use a dandruff cure to no effect whatever. And I used a quinine preparation quite freely which did no good either. Whether it was the effect of the fever or some scalp disease I don't know, but I had actually lost hope of saving any hair at all. I could brush it off my coat by the handful. It got so bad that I didn't need to comb it any more—in fact I was afraid to. My brother, who had used the Cuticura Remedies with satisfaction, advised me to try them. After using two cakes of Cuticura Soap and nearly a box of Cuticura Ointment, the change was surprising. My scalp is now clear and healthy as could be and my hair thicker than ever, whereas six months ago I had my mind made up to be bald in a short time. I will have a photograph taken later and send you one. William F. Steese, 5812 Broad St., Pittsburg, Penn., May 7 and 21, '08."

Warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, assisted when necessary by Cuticura Resolvent (liquid or pills), afford instant relief in the most distressing forms of itching, burning, scaly, crusted humors, eczemas, rashes, inflammations, irritations and chafings of infancy and childhood, permit rest and sleep and point to a speedy and permanent cure, in the majority of cases, when all other remedies fail.

Cuticura Soap (25c), Ointment (50c), Resolvent (50c), and Chocolate Coated Pills (25c), are sold throughout the world. Potter Drug & Chem. Corp., Sole Props., 137 Columbus Ave., Boston. Mailed Free. Cuticura Book on Skin Diseases.

Don'ts.

Don't attempt to punish all your enemies at once. You can't do a large business with a small capital. Don't say "I told you so." Two to one you never said a word about it. Don't worry about another man's business. A little selfishness is sometimes commendable. Don't imagine that you can correct all the evils in the world. A grain of sand is not prominent in a desert. Don't mourn over fancied grievances. Bide your time, and real sorrow will come. Don't throw dust in your teacher's eyes. It will only injure the pupil. Don't worry about the ice crop. Keep cool and you will have enough. Don't borrow a coach to please your wife. Better make her a little sulky. Don't imagine that everything is weakening. Butter is strong in this market. Don't publish your acts of charity. The Lord will keep the account straight. Don't color meerschaums for a living. It is simply dyeing by inches.—Mark Twain.

His Knitting Work.

Aunt Alvira Fifer was what her neighbors called a "regular driver." Possessed of knitting energy and untiring strength herself, she made little allowance for idleness on the part of any one, and she declared that she could "put up with a mean man easier than with a lazy one."

Aunt Alvira's husband, Uncle Ethan, was a small, wizened, weak looking man, whom Aunt Alvira declared to be "mighty wily, if he did look so spindlin'."

One day a summer boarder who chanced to be staying at a farmhouse near the Fifer homestead wandered over to the little brown farmhouse and sat down for a chat with Aunt Alvira. The visitor took note of the enormous quantity of stove wood piled up in the back yard and overflowing from the great woodshed. The whole yard was strewn with it. The caller estimated that there were not less than twenty-five cords.

"What an enormous quantity of wood you have," he said to Aunt Fifer. "Yes, there is considerable," she replied. "I calculate on sellin' most of it in the fall."

"Who cut it?"

"Oh, Ethan did it as sort of knittin' work. I think it's a good thing for a man to have some kind o' knittin' work to do when he's restin', and that wood pile has been Ethan's knittin' work."—Youth's Companion.

George I. and the Stage.

George I. was a lover of the stage and, as his predecessors had done, caused his "servants" to play before him at court. In 1718 his majesty ordered the great hall of Hampton Court to be converted for the time into a theater. There, under the direction of Steele, "whose political services had been poorly recompensed by granting him some theatrical privileges," seven performances were given. Among the plays were "Hamlet," "Sir Courtly Nice," "The Constant Couple," "Love For Money," "Volpone" and "Rule a Wife and Have a Wife." Among the players were Colley Cibber, Pinkethman, Johnson, Thurmond, Booth, Mills, Mrs. Porter and Mrs. Younger. In former times the fee paid by the sovereign to his servants for a play acted at Whitehall had been £20. For these plays at Hampton Court King George, besides paying the actors their ordinary day's wage and travelling expenses, gave £370 and added £200 for the managers. The players were required to act at any time upon receiving a day's notice.

The Canny Scot's Sense of Humor.

The reason a Scot does not laugh at a joke right away, says Dean Ramsay, is not, as is the popular fiction, that he is "slow in the uptake," but that the canny man will not commit himself. He must think it over before he donates the exact amount of laughter which the joke deserves. The Scot minister, who is Scotland's common public speaker, is aware, consciously or instinctively, of this trait, and the delivery of an anecdote with a pun is a thing of unique art.

Delay in commencing treatment for a slight irregularity that could have been cured quickly by Foley's Kidney Remedy may result in a serious kidney disease. Foley's Kidney Remedy builds up the worn out tissues and strengthens these organs. J. W. McCollum & Co.

THE BLACKSTONE SCHOOL FOR GIRLS

Established in 1894. The aim of the school is clearly set forth by its motto: "Thorough instruction under positively Christian influences at the lowest possible cost."

The school was established by the Methodist Church, not to make money, but to furnish a place where girls can be given thorough training in body, mind, and heart at a moderate cost. The object has been so fully carried out that as a result it is to-day, with the faculty of 25, the boarding patronage of 90, and its building and grounds, worth \$16,000.

RESULT: THE LEADING TRAINING SCHOOL FOR GIRLS IN VIRGINIA.

pay all charges for the year, including the table board, room, lights, heat, laundry, medical attention, physical culture, and tuition in all subjects except music and education. Apply for catalogue and application blank to REV. JAMES CANNON, JR., M. A., Principal, Blackstone, Va.

LUDLOW STREET JAIL

The Sheriff's Famous Prison In New York City.

ITS GUESTS WELL TREATED.

The Inmates Wear No Uniform and Have Many Privileges—The Discipline Is Quite Gentle and the Surroundings Peaceful and Homelike.

Walking through the streets of the squalid, noisy east side, the visitor in New York is quite unprepared for the peace and clean homeliness which greet him in the sheriff's prison in Ludlow street. Flanked by public school and police court on two sides, the brick building, ornamented with antique iron grill over long windows, resembles a village church or old fashioned hall of learning. The outer clamor does not penetrate its cool cloisters. The struggle for existence is halted at the threshold. But it is not so easy to enter the sheriff's rest establishment. The guard who opens the front door in response to the electric bell eyes the visitor suspiciously, as if the latter might be trying to break into the county haven without proper credentials. The only persons entitled to the privileges of the Ludlow tavern are those in contempt of surrogates and certain other courts, federal bankrupts, delinquent militiamen, execution and judgment debtors and breach of promise and alimony men.

However, the visitor who can prove that he has no sinister purpose is ushered into a cozy parlor fitted with rugs, pictures and piano. Here he meets the warden, who talks freely and simply about his guests. He admits he has never read Lombroso or any other criminologist. What's the use? They don't send felons to this place. The learned observations of penologists do not apply to the inmates of Ludlow tavern. Methods of discipline and reform are superfluous. There are just a few rules, such as obtain in any well regulated hostelry. A guest on arrival has his pedigree taken at the office, is shown up to his sleeping chamber, gets introduced to the gentlemen in the sitting room, and is left to his own devices—no uniform, no hair cut, none of the unpleasant features of a common prison. There is, indeed, a genteel search for sharp instruments, keys and knives, as forbidden articles, but there is no confiscation of any other private possessions. A man may bring in all the books, writing material, tobacco, clothes, toilet articles and bric-a-brac that he pleases.

The rising bell rings at 6:30 a. m. and the guests have a chance to wash, shave and make their beds before breakfast, at 8 o'clock. The regular breakfast consists of coffee and rolls but guests may supplement it with eggs cooked at the hot water tap or may order, at their own expense, an elaborate meal from the menu card of a nearby restaurant. The morning newspapers are at hand, so that guests while sipping their coffee, may scan headlines and note the progress of events.

After breakfast every one goes into the yard for an hour's exercise. The high brick walls do not bar the sun shine from the yard, which is about sixty feet square and stone flagged around a central grass plot. After the exercise hour the guests repair to a large sitting room and read, study or

play penicill, checkers, dominoes and chess. There is a small library of books and magazines. Those who have private stocks of literature exchange their books in a fraternal spirit.

The dinner bell rings at noon. A wholesome stew, a boiled dinner or a plate of fish and potatoes is provided. If this seems too frugal even for cloister life, there is the restaurant menu to fall back on. As a rule, though, the inmates are satisfied with the regular fare. Another hour in the yard, an afternoon spent in the sitting room, after the style of the morning session, and then a supper of bread and tea at 5 o'clock. Two hours later the guests retire to their chambers for the night. They are locked in, it is true, but the obliging guard will open on any reasonable request. There is no rule against talking, and guests may read or write by the light of their own candles until they feel disposed to go to bed.

A gentle routine it is. No one is overcrowded, for, while there are accommodations for a hundred persons, the number of guests is seldom anything like that. The disagreeable monotony of seeing the same faces and hearing the same anecdotes, complained of by arctic travelers, is obviated by the coming and going of inmates. The comfort of guests is pretty well assured by a staff of nine guards and three or four cooks and attendants.

Letters to guests are not opened before delivery, as in common penal institutions. Three days a week are set aside for visitors, but no member of the Alimony club is compelled to see his wife. Once in a long while, however, a member of the fair sex enters the portals as a guest. There was one woman brought to the office in contempt proceedings subsequent on a supplementary inquiry, but the referee held a hearing on the spot, and the woman was discharged with consent of counsel. In former days a male guest charged with breach of promise won freedom by marrying the woman of his choice in the hotel office.—New York Tribune.

The Cause of Drafts.

Why is it that windows and doors are frequently ill fitting? There is nothing wrong with the wood itself, nor with the workmanship, as a rule, nor with the fit, at the outset at least, but the whole trouble is due to the wood being unseasoned, or, rather, only partially seasoned, at the time it is made up.—Timber.

Optimistic.

"Is Jones an optimist?"
"Is he? He found a ticket entitling him to a chance in an automobile drawing the other day, and he is building a garage."—Boston Transcript.

Answered.

Bobby—What's the simple life, pa?
Father—Doing your own work, my son.
Bobby—And what's the strenuous life?
Father—Doing some other fellow's work. Now run along and play.

HAPPY WOMEN

Plenty of Them in Gainesville, and Good Reason for It.

Wouldn't any woman be happy, After years of backache suffering, Days of misery, nights of unrest, The distress of urinary troubles, She finds relief and cure? No reason why any Gainesville reader

Should suffer in the face of evidence like this:

Mrs. John Smith, 307 E. Magnolia street, Gainesville, Fla., says: "I suffered from a weak back and severe pains in my sides for a long time. I could not stoop without experiencing sharp twinges through my body and if I did so it was difficult to regain an erect position. I was also subject to headaches and at times was very nervous. When I saw Doan's Kidney Pills so highly recommended for these troubles, I procured a box and began their use. In a short time I felt much better. The pains lost their severeness and I gained in strength. I consider Doan's Kidney Pills an excellent remedy and am pleased to recommend them."

Venetian Coffee Houses.

The first cup of coffee was drunk in Europe at Venice toward the end of the sixteenth century. The Venetian chronicler Morosini in his records of the events in the year 1585 mentions the beverage called "caveo" drunk by the Turks and noted for its antiseptic qualities. In the year 1591 a Venetian doctor introduced the berries from Egypt, taught his countrymen how to crush them and brew the beverage, and the use of coffee soon became general—so much so, in fact, that Venice was full of coffee houses where the people idled away their days drinking the aromatic beverage. A peculiarity of the Venetian coffee houses was that their patrons did not pay for each cup of coffee they drank, but settled their bills for all the coffee consumed at the end of each year. The regular price of a cup of coffee was 5 soldi, about 2½ cents, and in some of the old cafes of Venice today the same price is still charged.—New York Sun.

Awkward Compliment.

There is such a thing as being too persistently complimentary. A candid and well meaning professor who had witnessed the performance of a little play in a private house in which his hostess had taken the leading part met the lady as she came from behind the curtain.

"Madam," he said, rushing up to her, "you played excellently. That part fits you to perfection."

"Oh, no, professor," said the lady modestly. "A young and pretty woman is needed for that part."

"But, madam," persisted the professor, "you have positively proved the contrary."—Pearson's Weekly.

A Question of Color.

The enormous difficulties of color terminology are illustrated by a customer's "exact statement of her requirements" in a large dressmaking establishment one day. "Something in blue taffeta silk, please. I don't want anything as dark as navy blue nor anything as light as Cambridge blue, but something darker than Lion blue and yet a little off from an electric blue and hardly a sky blue—more like a robin's egg blue and yet not quite so light, but not an indigo blue, but something like this tint; I think they call it morning glory blue, which is something like a turquoise blue and yet not quite so light as that and yet not so dark quite as this aquamarine blue nor so light as baby blue. Now, if you have anything in the shade I have described, please show it to me." The intelligent assistant unrolled a length, a cross between the blue devils and the deep sea, with the remark: "This is the shade of blue you require, madam. It is called 'London milk'."—Dyer and Calico Printer.

The Oriental Mind.

Frederic S. Isham, the author, told the following to illustrate the double dyed duplicity of the oriental mind. Mr. Isham was in Peking. Passing the arch to the Baron von Kettler, supposed to be an arch of contrition for the foul assassination of that brave official, the novelist asked a Chinaman who spoke a little English:

"You know why this monument was erected, I suppose?"

"Oh, yes," was the ready reply in dialect, "to commemorate a triumphant deed, the death of a very powerful foreigner."

"Commemorate! And is that?" in amazement—"What the people generally think was the purpose of this monument?"

"Why not?" The Celestial's face was immovable, but a suggestion of sardonic humor seemed to flash from his slant eyes. "Chinese people much like monument."

And, indeed, they seemed to bask in the shade of it with much satisfaction.

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Gainesville Has:

TWO PIANOS AND A DIAMOND RING

Total Cash Value, \$1,000.00

To Be Given Away by the Merchants and The Sun to Citizens of Alachua County!

Each Section Gets Prizes!

Contest to Close August 18, 1909

Realizing that all should share alike in the distribution, leading business houses have joined in the combination to give away Two Handsome Pianos and One Diamond Ring to residents of Alachua county in three different sections. These progressive firms will give One Vote for each penny spent with them.

In the event of a tie for any prize offered, a prize similar in all respects there-to will be given each of those tying.

THE A. R. HARPER PIANO CO. of Jacksonville, from whom the pianos for this contest were purchased, have agreed to offer extra prizes as follows: To the first five candidates in each district, excepting the winners of the capital prizes in the said districts, one certificate each for \$100.00 which will be redeemable in cash as a payment on any piano handled by them—the Everett, Harvard, Dayton or John Church Pianos. In addition to this they will give a certificate good for \$25 to all other contestants in the race, and will make special arrangements with anyone to take care of their paper on all purchases of instruments at the cash price.

The Gainesville Section Will embrace the city and suburbs and be confined to a radius of four miles in each direction. The winner in this district will be awarded a HANDSOME DIAMOND RING.

Eastern and Southern Section Will comprise territory from Fairbanks all points east and from Rochelle all points south—Waldo, Hawthorn, Island Grove, Campville, Micanopy, Lake View, Tacoma and all points along line of T. & J. Ry. ONE PIANO.

Western and Northern Section Will comprise all stations from Hague to High Springs, Trenton, Wannee, Wilcox, Bell, Newberry, Jonesville, Archer and all settlements covered by this area. ONE PIANO.

J. A. Goodwin, the city ticket agent of the Coast Line, will leave today for a two-weeks' vacation, the principal part of which will be spent at Daytona Beach. During his absence the office here will be in charge of W. Wilson, one of the employees from the offices up-stairs.

Nothing like the sale of goods and seasonable merchandise ever offered before in Gainesville is the \$20,000 Sacrifice Sale of J. Manasse. He has some extra choice bargains to give you, and asks that you call with the crowds at his store and take advantage of the offerings.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy. This great remedy stops the pain and the irregularities, strengthens and builds up these organs and there is no danger of Bright's disease or other serious disorder. Do not disregard the early symptoms. J. W. McCollum & Co.

THE MICANOPY GAME.

Waldo Defeats Them in Five-Inning Game Tuesday Afternoon.

The Waldo baseball players passed through the city yesterday en route to their home from Micanopy, where they played a short game on a wet diamond.

The score was rather close considering the conditions and the work of both batteries for amateurs was very satisfactory.

Prewitt and Harvey held the honors for the Waldo nine, while Watkins and Matthews did the work for the Micanopy team. At the end of five innings the game was called, the score being 7 to 2 in favor of Waldo.

Waldo has one of the best little clubs in the State and while it is composed mostly of young boys, their manner of ball playing is to be commended, for they have gone up against some of the first teams of the State. The Micanopy boys also know the game and at the rate they are coming to the front they will soon be with the "upper crust" in playing "some ball."

Weather Delays Work.

John Young, the Government architect of Ocala, was here yesterday looking after the progress of the Government building now being built in this city. He states that he will also visit Fernandina to look after the new building in that city. He is favorably impressed with the work being done here, but is dissatisfied with the weather preventing them from making better headway.

Increase in Assessments.

Attention is called to the increase in assessments of property made by the County Commissioners at their regular meeting in July. If you have cause to complain of the increase of the valuation of your property you will have to go before the board on the first Monday in August, as no change can be made by the commissioners after that date.

YESTERDAY'S ELECTION HERE.

A Small Vote Was Polled and Little Interest Taken.

A very light vote was polled in the election for trustees of the sub-school district in Gainesville, as it was raining very near all day and no one seemed disposed to get around and work.

A levy of 3 mills was voted and the following trustees elected for two years: J. H. Vidal, W. W. Hampton and Dr. J. H. Hodges, the latter being a new member instead of G. W. Hyde, who is now absent from the city.

Help for Those Who Have Stomach Trouble.

After doctoring for about twelve years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctors' fees, I purchased my wife one box of Chamberlain's Stomach and Liver Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—Samuel Boyer, Folsom, Iowa. This medicine is for sale by all druggists. Samples free.

Micanopy Election.

The sub-school district election in Micanopy resulted in a levy of 3 mills for school purposes and the following were elected as trustees: Dr. J. D. Watkins, Dr. W. C. Johnson and N. B. Mott, being the same as formerly with the exception of Mr. Mott, who succeeds J. W. Smith.

Everyone would be benefited by taking Foley's Orino Laxative for stomach and liver trouble and habitual constipation. It sweetens the stomach and breath, gently stimulates the liver and regulates the bowels and is much superior to pills and ordinary laxatives. Why not try Foley's Orino Laxative today? J. W. McCollum & Co.
